Transitional LIVING

The Ranch at Dove Tree provides transitional living homes for emerging adults transitioning from any residential treatment program. The TreeHouse (for men) and the TreeHaven (for women) offer therapeutic support in an environment conducive to long-term recovery. We understand, through nationally recognized research, that long-term treatment is the preferred option for adults with addictive disorders.

The Ranch at Dove Tree prescribes to the idea that a comprehensive discharge plan will include significant recommendations when stepping down from each level of care. Just as addiction does not progress to its full manifestation over a short period of time, recovery also takes some time to develop.

Understanding the need to bridge the gap between leaving primary care and living life on “life’s terms”, our transitional living programs provide residents with the necessary tools to move forward in their lives and to continue the mission of The Ranch at Dove Tree by preparing young adults and their families for a lifetime of recovery.

TreeHouse - male sober living facility for adult men

TreeHaven - female sober living facility for adult women
